SUBJECT.

Site for the Bangalore City Municipal School

	FILE No. MI. 318 of 1904-05. *Site for the Bangalore City Municipal School.*	
1	From the inhabitants of the Bangalore City including Chamarajendrapet and Basavangudi Extensions petition, dated 8th July 1904. Pray that the site which was selected by Government in 1899 for the erection of a new City Municipal High School at the southern entrance of the Fort and which is now given to the City Institute, may be given for the construction of the said school.	
2	To the President, Bangalore City Municipality, the Chief Engineer in Mysore, No. 5574-5, dated 29th December 1904. Declines to interfere with the Mahal building in the Fort and informs that a new building for the Municipal School will be provided at Government cost and that the ground given away to the Bangalore City Institute and utilised by them is not now available for the purpose.	
3	Endorsement to the petitioners, Bangalore City, No. 5590, dated 29th December 1904. Informs that the Government are fully alive to the necessity of providing the City with a good High School but that the site which has already been given away to the City Institute cannot be disturbed.

For the order granting the rectangular piece of land under reference to the Bangalore City Institute please see G.O. No. 3018-21 dated the 6th Feb. 1902. L.764-03

The Committee has observed that the grant of this site to the Institute does not interfere with the arrangements under contemplation in regard to the Municipal School.

The Petitioners (vernacular Petition Diary No. 185) pray for a reconsideration of the Govt order of the 6th Feb: last. Their application is that the disposal otherwise of the site to will interfere with the provision of a site for the proposed new school buildings

3. After personal inspection by both the Members of the 1st Committee

the site referred to was allotted
to the Bangalore city Institute.
There however are two extensive
plots of ground to the north
& East of the site now allotted
which could more conveniently
be utilized for a Municipal
School now under consideration

Submitted for orders.

5 The Petitioners say that the site
given to the Institute was the
additional site set apart for
the Normal School in 1899. & are
afraid they are wrong. Their
suspicion is that the site b.
the north of the 5th Main Road
of Chamarajpet, was the one
selected for the School. The
site given to the Institute is
to the South of that Road.
The Road divides the two sites
both of which could conveniently
be utilized for a Public Purpose

may keep it (the road) is blocked up - & the deed of the County of the road is not sufficient for the school. There is a splendid site on the other side (west) of the Post & Branch Road - Before giving any decision I wish to see the file relating to the selection of a school site which has been made in 1899. The official will please put me at once - after giving Q. Then it shall once be filed upon the next day of meeting. Q

Before

The locality was inspected by the Deputy & myself this morning in the presence of several of the Petitioners - The Deputy was pleased to suggest a solution satisfactory to all concerned - The file may be placed before him for orders - Q.

11/7/04

I submitted to the Deputy [illegible] 11.7.04

8. I am glad this question has been settled in a manner which seems to satisfy all concerned - The Inchcape will remain where it is - The Govt are fully alive to the necessity of providing Untely with a good High School building - altho this is a charge which rightly falls on the Municipality of the Govt have no objection to undertake this work - The site most suitable for this purpose is the ground surrounding the building known as the Mahal or Palace that being of little value if allowed to remain if utterly useless & if capable of being repaired - The fort wall may be also opened to admit fresh air as also to connect the ground outside the fortwall with the ground inside when a large play ground will be made available - To record this more definitely I shall want a plan showing this ground in which should be located Tipu's Palace, present Ruling Chieftain's Quarters on the two sides of the fort wall and the made up ground lying outside the fortwall the exact measurements should be noted. These sketches will be helped the relative position & the extent of the ground given with Inchcape may also be shown.

No improvements to the Normal Building so as to fully adapt it to the requirements of the Municipal School seem possible. The more desirable portion of the building might be used as a new building to the South of it and an opening in the front wall, removed, so might meet all reasonable requirements. The removal of the Taluk Cutchery & the Revenue Police Lines to a more suitable locality would obviate the necessity of a new School building being constructed, and all considerations point to its desirability provided the cost involved is not prohibitive.

MGCP 13—10 000—19-5-04

To

Sir P.N.Krishna Murthi, K.C.I.E.,

Dewan of Mysore.

Diary No 185.

May it please Your Excellency,

We, the undersigned inhabitants of the Bangalore City including the Chamarajendrapete and Basavangudi Extensions, respectfully beg to approach your Excellency with our humble representations in regard to the site selected by Government in 1899 for the erection of a new City Municipal High School at the Southern entrance of the Fort between the Albert Victor road and the main road passing through the Fort to Basavangudi Extension.

2. We beg to submit that for the past ten years, and since the outbreak of plague in August 1898, hundreds of families have left the old City (Pettai) and have taken their permanent abode in the said two Extensions as well as the other suburbs contiguous to them.

3. We need hardly re-call to mind that the City Municipal English & Kannada Schools, which were being held in an overcrowded part of the City in unsatisfactory and insanitary buildings and which suffered most seriously during these plague years, were removed a couple of years ago to the spacious old Palace in the Fort under an order graciously passed by you in the sole interest of the health and the well-being of numerous little boys attending the said institutions. Your Excellency will be glad to hear that, since the removal of the schools to the Palace-Building, the casuality among the students of the Institutions from the fell disease has been known to be far and few between; and for which the students and their parents and sincere well-wishers cannot be too grateful to your Excellency.

4. We understand that the use and occupation of the Palace by the said Institutions have been intended only as a temporary arrangement pending the construction of a puuca school-house providing for the accomodation of the High School classes also.

5. We beg leave to submit that the two Extensions named above are in themselves two rising new towns attracting even a large number of outsiders and periodical sojourners.

6. As your Excellency is aware that there is no public building, educational or otherwise, in these growing parts of the City, we need not dwell at length on the merits of the question.

7. The report that the site set apart for the School has been promised or given away to a purely private body called "The City Institute", has caused us pain and regret.

8. If the report is true, the Extentions will be deprived of a large part of ground prepared for the special purpose at considerable expense to the Municipality: and as the ground so prepared is most centrally situated, we fervently & respectfully pray that your Excellency may be graciously pleased to confer the lasting boon by ordering the proposed School to be erected on the aforesaid site, and the boon will be a blessing conferred on a very large number of the present and future school-going population of the City.

9. When a school-house is built with sufficient accommodation, the use of a room or two may be allowed to the said City Institute, if necessary, together with a portion of the play ground available for the students.

10. We hope to convince your Excellency of the justice of these representations, if your Excellency is pleased to

give

give the benefit of a personal inspection of the locality before any work is permitted to be done on behalf of the Department.

II. In consideration we venture to entertain the hope that our prayer will meet with your Excellency's earnest and favourable consideration.

We beg to remain,
Your Excellency's most obedient servants.

Bangalore City,
8th July 1904.

No. S-590 — 3187 — 5

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE.

General and Revenue Secretariat.

( )

Office Memorandum.

Bgre 29/12/04.

With reference to this petition Regd No: 185 of the 8th July 1904, praying that his site on the Bangalore Fort glacis ~~from~~ given away to the Bangalore City Institute may be set apart for the construction of the Municipal School &c

Mr Basavaiah Row and others are informed that the Maharaja has been pleased to order that his said site ~~&~~ given away to the City Institute is the identical one set apart for the Municipal School in 1899 ~~as~~ as appears to be demarcated in the map as his boundary site is to the North of the Victoria road of Bhamaraja Nagar and does not also include the one selected for the School

the Govt are fully alive to the necessity of providing the city with a good High School building & though this is a charge of the Municipality the Municipality

G. H. S. 31

But

~~but that~~ the site which has

~~and that on the forecourt site has~~

already been given away to the City Institute which has been utilized by them

~~from present purposes~~

~~cannot be entertained~~

cannot be interfered with.
